Jalan Karangrejo Selatan No.29 RT.02 RW.08, Tinjomoyo, Banyumanik, Kota Semarang

I'm a web developer from Semarang, Indonesia, currently pursuing a degree in Informatics Engineering at Dian Nuswantoro University and enrolled in excellent classes. I specialize in Fullstack Development, crafting dynamic, responsive websites/apps, and constructing REST APIs or systems. I have previous experience in leadership roles within communities such as GDSC and DNCC.

Work Experiences

Universitas Dian Nuswantoro - Kota Semarang, Indonesia

Feb 2024

Project Manager Intern

As a Project Manager Intern at Universitas Dian Nuswantoro, I act as the SCRUM Master. I manage backend, frontend, UI/UX, and mobile developers. I use ClickUp for task organization and conduct nightly stand-up meetings. I oversee the "Bengkel Koding" app project, ensuring smooth progress and team coordination.

- Awarded for the best planning among all projects in the undergraduate Informatics Engineering program and Successfully published Intellectual Property Rights for the "Bengkel Koding" app

Universitas Dian Nuswantoro - Semarang, Indonesia

Sep 2023 - Feb 2024

Software Engineer Intern

As a Software Engineer Intern at Universitas Dian Nuswantoro in the International Affairs division, I assisted with faculty projects. My role involved developing a web system using Laravel and Python to predict the Indonesian Stock Exchange (IHSG).

- Successfully published Intellectual Property Rights for the IHSG prediction project and Published a paper on the IHSG prediction project

Universitas Muhammadiyah Semarang - Kota Semarang, Indonesia

Apr 2023 - Aug 2023

Web Course Instructor

As a Web Course Instructor at Universitas Muhammadiyah Semarang for the ISC basic web developer class organized by Himafor Unimus, I created the curriculum. My responsibilities included designing lessons from basic web concepts to fundamental PHP CRUD operations.

Azura Labs - Semarang, Indonesia

Aug 2022 - Sep 2022

Back End Developer Intern

As a Back End Developer Intern at Azura Labs, I learned to create REST APIs using Express.js and Go with Gin. I worked on a capstone project for a specific application, applying these technologies to build and enhance backend functionalities.

Relasi - Yogyakarta, Indonesia

Nov 2021 - Apr 2022

Product Manager

As a Product Manager Intern at Universitas Dian Nuswantoro, I served as the SCRUM Master, managing backend, frontend, UI/UX, and mobile developers. I organized the backlog using Jira, helped develop REST APIs, and rejected features that didn't align with project goals.

- Successfully obtained a funding grant of 10 million IDR from the Ministry of Youth and Sports Indonesia.

Idolegacy Sdn Bhd - Kota Kinabalu, Malaysia

Jan 2021 - Oct 2021

Web Developer
